  - **Version Control:** Git
  - **Methodologies:** AGILE, SCRUM, Waterfall
  - **Tools:** Figma, VS Code, Github
  - **Other:** Responsive Design, RESTful APIs
- 

### LANGUAGES

**English – Advanced** (TOEIC 895 – Reading & Listening, Internal University Test).

---

### PROJECTS

#### 1. Food Ordering Website:

- **Description:** A food ordering system with home delivery, online payment, and a management dashboard for restaurants.
- **Frontend Technologies:** ReactJS, HTML, CSS, JavaScript, Tailwind CSS.
- **Backend Technologies:** Node.js, Express, MongoDB.
- **Role:** Full-stack Developer.
- **Key Achievements:**
  - Developed an interactive menu with search and filtering features using ReactJS.
  - Implemented a secure payment system.
  - Implemented user account management functionalities.
- **Github link:** <https://github.com/nmcdev072/Veghealth>

#### 2. Hotel Booking Website:

- **Description:** An online hotel booking website with room search, user account management, and an admin dashboard for efficient reservation handling.
- **Frontend Technologies:** ReactJS, HTML, CSS, JavaScript.
- **Backend Technologies:** Spring Boot, MySQL.
- **Role:** Full-stack Developer.
- **Key Achievements:**
  - Developed an online booking system with room search and filtering by using ReactJS.
  - Integrated API calls to manage reservations and booking history.
  - Built an admin dashboard for hotel management, featuring room listings and booking control.
- **Github link:** <https://github.com/nmcdev072/Booktel>

#### 3. Personal Portfolio Website

- **Description:** Developed a personal portfolio website to showcase projects and skills.
- **Technologies Used:** HTML, CSS, JavaScript.
- **Role:** Frontend developer.
- **Key Achievements:**
  - Designed a responsive and modern user interface.
  - Utilized CSS animations and transitions to create visually appealing effects.
  - Deployed the website using Vercel for seamless hosting.
- **Github link:** <https://github.com/nmcdev072/Portfolio>
